# INTRODUCTION

In 1997, Brett Barratt, a skilled carpenter and the future founder of Warrior Doors, recognised a pressing need for improved door designs using superior materials. Alongside his wife, Ann, he established Sure Lock Home Security and Doors, which rebranded to Warrior Doors in 2012 to better reflect their commitment to providing high-security solutions for high-value retailers.

From a humble garage workshop to a 15,000 sq. ft factory with 55 dedicated staff members and a £4 million turnover, Warrior Doors has built a strong reputation for innovation and excellence. We offer a range of durable, long-lasting doors and entrance systems that strike a fine balance between security and aesthetics.

The owners' vision for the company emphasises continuous investment in innovation, state-of-the-art machinery, cutting-edge technology and rigorous testing programs. This commitment ensures our products not only meet, but exceed the highest industry standards, providing optimal security solutions for jewellers, antique shops, luxury retailers and more.

By combining security, design, and corporate social responsibility, Warrior Doors remains unwavering in its mission: to safeguard people, assets, and livelihoods with the best in the industry.

# LONG-TERM VALUE

Warrior Doors provides premium security solutions that offer considerable long-term value for high-value retail customers. The long-term savings, security, and convenience our doors provide make them an incredibly beneficial investment.

**LIFETIME USE:** Our doors are designed for lifetime use, thus presenting a remarkable whole-life cost advantage over cheaper, less durable alternatives.

**CERTIFIED:** LPCB at BRE-certified (LPS 1175 & LPS 2081 SRB) and Secured by Design approved, Warrior Doors uphold ISO 9001:2015 certified quality control, ensuring the highest standards of quality.

**IN-HOUSE PRODUCTION:** Warrior Doors proudly offers a fully in-house production cycle, powered by strategic investments and cutting-edge equipment like the Trumpf TruBend 5320 Brake Press. From laser cutting to flawless finishing, every stage has been perfected under our roof. Excellence, from concept to completion.

**SUPERIOR MATERIALS & DURABILITY:** Employing rigorously tested materials, including high-grade stainless steel used in Space X rockets, Warrior Doors ensures superior durability and quality. Our products offer reliable service for decades, minimising long-term maintenance and replacement costs.

**FULLY CUSTOMISABLE:** Offering a truly customisable product, we ensure the perfect fit for your project, eliminating additional costs of alterations or replacements.

**FOR A DECADE, PAKEEZA JEWELLERS' SHOP FRONT DOORS BY WARRIOR DOORS HAVE STOOD STRONG**

# SECURITY STANDARDS

## DEMONSTRATED EXCELLENCE:

Numerous burglary attempts have failed against Warrior Doors' protection, even against severe methods like sledgehammers, axes, and vehicle attacks.

**MEMBERSHIP WITH SECURED BY DESIGN:** As an active member of the police-driven initiative Secured by Design, we collaborate closely with their Design Out Crime Officers (DOCOs) to reduce crime using 'Police Preferred Specification' products.

**PROFESSIONAL INSTALLATION:** Our in-house installers prioritise correct installation using appropriate materials and methods, which is vital for optimal security.

**ESTEEMED INDUSTRY COLLABORATIONS:** Our expertise is endorsed through partnerships with reputable organisations like the Company of Master Jewellers (CMJ).

# BALANCING

## SECURITY WITH REFINED DESIGN

Warrior Doors' full range of products seamlessly combine safety and elegance. Our comprehensive range of products, from external doors to internal displays, provide protection that is both evident and discreet.

**In the realm of high-security doors, the compromise on design can often seem inevitable. At Warrior Doors, however, we challenge this assumption.**

We are committed to ensuring that our products not only offer the highest possible security, but are also visually appealing. Every piece we create echoes our belief in 'designing out the fortress mentality', offering a refined look without compromising on protective qualities.

# INTERLOCKING DOORS

Our innovative Interlocking Doors are engineered to minimise the risk of tailgating and armed robbery, making them ideal for jewellers, luxury boutiques, and high-end retailers.

This ingenious system, also known as an **airlock**, **tiger trap**, or **man trap**, consists of a pair of doors where only one door can be opened at a time. This unique design gives staff the chance to evaluate customers twice before they gain entry, thereby preventing tailgating and stopping intruders from holding the door open for accomplices.

For a tailored fit to your store layout, our Interlocking Doors are available in several configurations, including dual swing doors, dual sliding doors, or a combination of both. Constructed from superior-grade stainless steel and fitted with high-security glazing, these doors offer exceptional durability and unmatched protection.

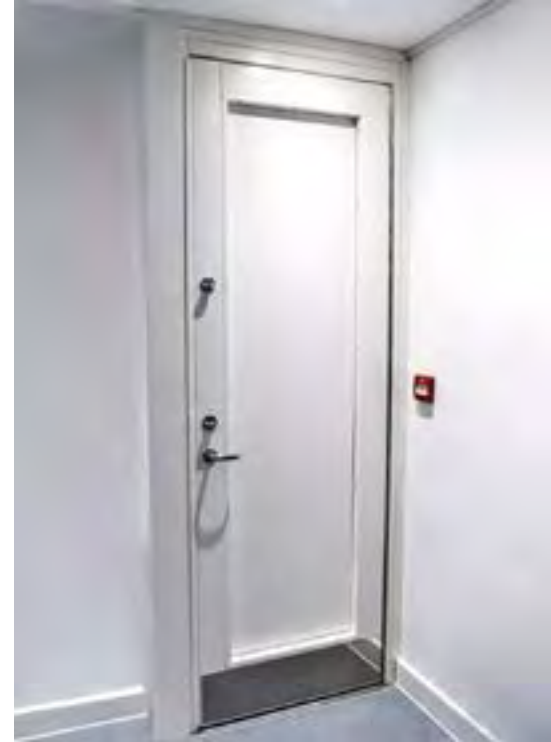

# SAFE ROOM DOORS

In the unlikely event of a security breach, our Safe Room Doors offer a fortified refuge for staff and customers, significantly reducing potential harm and emotional distress while ensuring the peace of mind of employees.

Our Safe Room Doors are designed with a variety of locking options as well as full-width locking and handle options for quick and secure closure. You can choose from fully glazed, solid stainless steel, or a combination of both to match your specific safety requirements. The upper vision panel allows staff to monitor the situation and communicate with law enforcement.

These high-security safe room doors are adapted from our proven Swing Door designs, with specific modifications to cater to unique safety considerations. For instance, we can leave out the door closer to facilitate quick access to the safe room. We can train the staff about evacuation and invacuation procedures to ensure everyone knows how to react in case of an emergency.

# REAR & FIRE ESCAPE DOORS

Our meticulously designed rear door offers a safe exit if primary doors are compromised. It has a robust stainless-steel build with security features equivalent to our main interlocking doors.

The door boasts a high-security multi-point lock. This lock provides a single-action escape function, which can be disabled by an overlock system. This system also restricts access control when the last person leaves the building or at the day's end.

# VEHICLE MITIGATION

The rising trend of criminals using vehicles as weapons has become a significant threat to high-value retailers. To counteract this, our Vehicle Mitigation Technology reinforces your storefront internally, enhancing its resilience against such attacks.

Incorporated discreetly into the shopfront, our Vehicle Mitigation Technology remains invisible and unobtrusive to both staff and customers. Our team of skilled designers collaborates closely with clients to develop tailored solutions that enhance security while seamlessly blending into the unique architecture of the shopfront.

# SHOPFRONTS & DISPLAYS

Your store's security extends beyond its front door. Our fully glazed Shopfronts & Displays can be engineered up to LPS 1175/SR4 and offer a luxurious and secure facade for your store without any bulky features. This enables your products to capture customer attention while ensuring optimum protection.

For instance, if you want to feature a unique watch or bag, our secure display units let you showcase and protect them from in-store smash-and-grab attempts, like sledgehammer attacks.

In addition, for stores with Interlocking Doors, our team can craft custom side panel display screens. This enhances your shopfront display's security and aesthetic appeal, resulting in a visually stunning and safe shopping environment.

# WARRIOR DISPLAY VAULT

In luxury retail, inventory protection is key. Warrior Display Vault delivers a secure, stylish solution for high-value jewellery and watches, with added mobility and custom control.

## KEY FEATURES:

### UNPARALLELED SECURITY:

Protection against theft and vandalism

### EXCEPTIONAL DURABILITY:

Constructed from ultra-tough, tamper-resistant materials and equipped with cutting-edge locking mechanisms

### AESTHETIC ELEGANCE:

Meticulously crafted by skilled artisans to showcase your exquisite watches and jewellery without obstruction

### CUSTOMISATION:

Reflects your brand's unique style and vision

### MOBILITY AND APP CONTROL:

The vault is easily movable and can be controlled using a tailor-made mobile app

### ACCESS CONTROL INTEGRATION:

Connects seamlessly with security systems such as buttons and keypads to manage and monitor entry points

During our in-house test, the Warrior Display Vault withstood a 20-minute attack from over 10 people. All attempts failed!

# WARRIOR DISPLAY VAULT PROVIDES HIGH PROTECTION AGAINST PHYSICAL ATTACKS

# SECURE TRADE COUNTERS

Warrior Doors is proud to extend our expertise to the design of secure trade counter systems. These provide an effective barrier against potential threats while maintaining a welcoming atmosphere and enabling the smooth transaction of cash, jewellery and watches between your employees and customers.

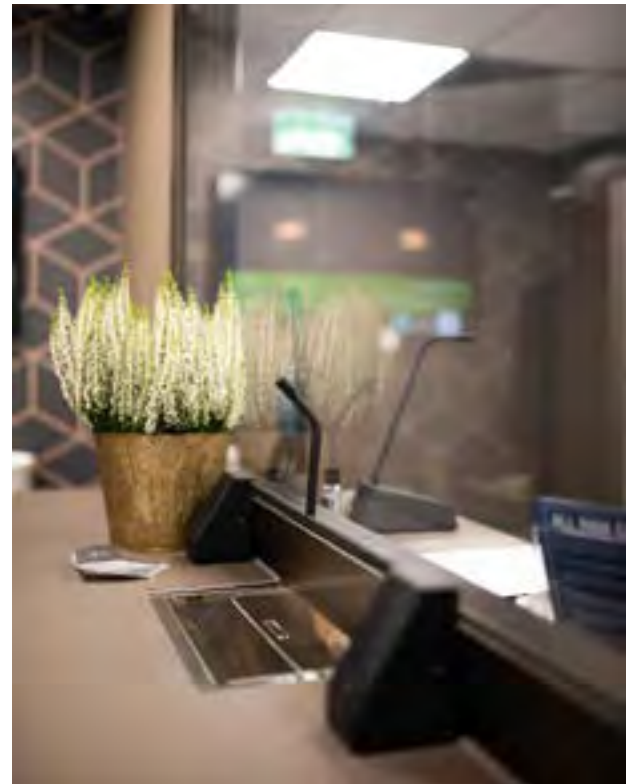

# CUSTOMISED SOLUTIONS

We offer tailored designs specific to your business needs. Our design team collaborates with you to seamlessly integrate electronic equipment into your infrastructure, encapsulating your brand's distinctive style. Additionally, we cater to the secure transaction of larger items with bespoke designs.

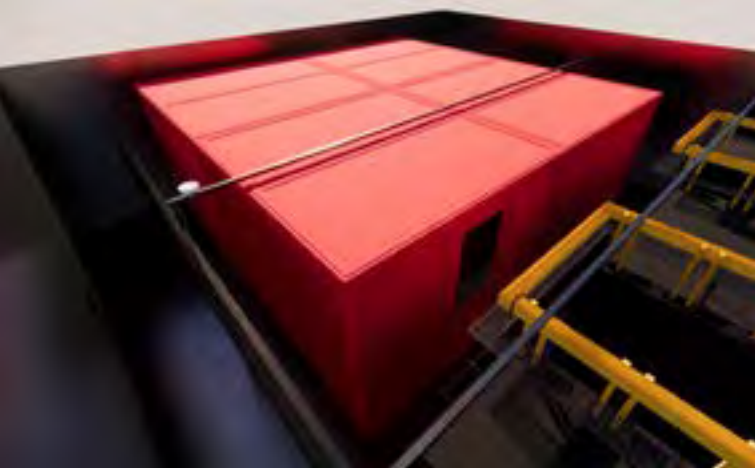

# PREMIUM MATERIALS

Our transfer systems are crafted using premium materials, including durable stainless steel and specialist polycarbonate glazing. This ensures exceptional protection, remarkable longevity, and low maintenance requirements.

# ADDITIONAL SECURITY

At Warrior Doors, we offer more than just door manufacturing. Our extensive range of high-security solutions are designed to strengthen every aspect of your property and provide unrivalled protection for your valuable assets.

# WALL & CEILING HARDENINGS

Elevate your premises' structural resilience with our advanced wall, ceiling, and entry point fortification services. Engineered up to SR4, they are meticulously designed to counter forced entry, vandalism, and other security threats.

# BAR SETS

Our robust Bar Sets offer a potent form of secondary glazing. Expertly designed to deter potential intruders and shield your premises, safeguard your high-value retail assets with unwavering fortitude.

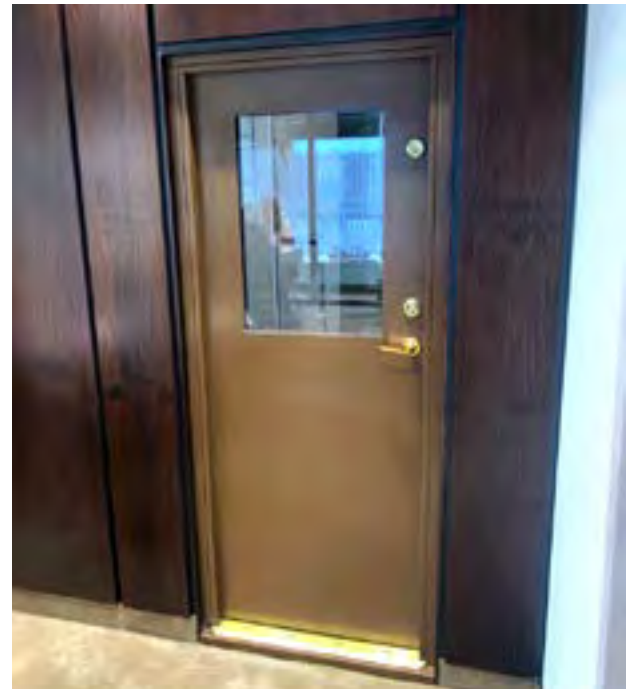

# SECONDARY GLAZING

Maintain your listed building's timber windows while adding an extra layer of security with Warrior Windows' secondary glazing. Enjoy enhanced break-in protection without sacrificing your property's timeless appeal.

# STRONG ROOMS

A strong room is a secure, reinforced space designed to house a vault or valuable assets. Our strong room doors enhance the security of this stronghold with advanced locking mechanisms, fortified materials, and superior craftsmanship, delivering unmatched protection.

# WARRIOR HERITAGE

Warrior Doors recognises the importance of preserving the character of listed buildings while ensuring modern security measures. Our goal is to weave security seamlessly into the fabric of classic architecture, helping to 'design out' crime without disrupting the building's historical aesthetic.

## SEAMLESS INTEGRATION

Our bespoke solutions can replicate or match the existing door and shop front while enhancing your display area. Our doors are compliant for installation in conservation areas and listed buildings, simplifying the approval process.

# KEY BENEFITS

## FINANCE

In partnership with independent funding houses for equipment leasing and asset finance, Warrior Doors provides a convenient alternative to outright cash purchases.

## SERVICE PLANS

From meticulous hardware checks to reporting on door electronics, we ensure optimal functionality. Each plan is tailored to your unique needs and product, ensuring you never overpay.

## 10-YEAR WARRANTY

Our masterfully engineered doors combine strength and low maintenance. We are so confident in our craftsmanship that we are pleased to provide a 10-year warranty on all our manufactured products.

## SUSTAINABILITY

The inherent resilience of stainless steel extends our products' lifespan. Through the years, Warrior Doors has consistently demonstrated exceptional durability, underscoring our unwavering dedication to sustainability and quality.

# CUSTOMER TESTIMONIALS

## PHILLIP STONER

After a violent robbery, we called on the help of Warrior Doors, where Brett and the team came up with the perfect solution for our Grade Two listed site. The quality of the finished door is superb, but, more importantly, the staff feel so much safer at work. Hopefully, it will never be tested, but it's good to know we have a Warrior Door in place. Just wished we had fitted one years ago!

## STRAND JEWELLERS

I am very happy with Warrior Doors' products. Both the staff and the stock feel much safer inside the store. Communication with Dominic was great and Patrick who installed the doors was fantastic. We had a few issues initially however Warrior Doors came to resolve them quickly and now we couldn't be happier.

**“ I wouldn't open for trade without a warrior doors system installed ”**

## 50 HENLEY STREET

Having experienced a horrific armed robbery last December I contacted Warrior Doors who came highly recommended by several friends in Birmingham's Jewellery Quarter. Brett and his team were very sympathetic and understanding of our needs to make the workplace safe and secure going forward.

We decided on a Sliding Door Interlock system with double door entry, a strengthened window frame using reinforced steel and Vehicle Mitigation Technology. We now operate from a very secure environment that our customers really appreciate.

## HENRY ROSE JEWELLERS

Since the installation of our Warrior Doors products we have seen an increase in spend per customer within the store. I think that this is because the new system shows that we are serious about our business. The doors are great aesthetically too, they don't look like security doors they look sleek and professional. This inspires a confidence in our products for our customers and has generated an increase in profit for the business.

You don't see your display window in the same way that a thief does. For a Jeweller that's your stock, for a thief it's a target. Because of that, if I was to open another store I wouldn't open for trade without a Warrior Doors system installed. I highly recommend Warrior Doors.

# VISIT US

At Warrior Doors we know it can be difficult to get a full sense of our doors just from pictures. As that is the case we offer a variety of options for you to learn about them at our Birmingham factory unit.
